COATING KIT FOR WALL ART
Adds Protection & Elasticity to Canvas Giclees
Also Effective on Paper Prints

The Gluefast Company announces our new **CV Spray Kit** to apply a water based acrylic coating which enhances and protects prints whether on paper or canvas, eliminating the need for protective glass. Each kit comes complete with a pint of our water-based acrylic CV 2300UV coating, two Preval Sprayer units and a pistol grip handle.

The Preval Sprayer units cast a clean, uniform and professional-grade glaze of the CV coating which provides a glossy finish with UV protection added. The pistol grip handle provides comfort and stability when using the Preval Sprayer units. Our coating kits are available for the low price of \$29.99.

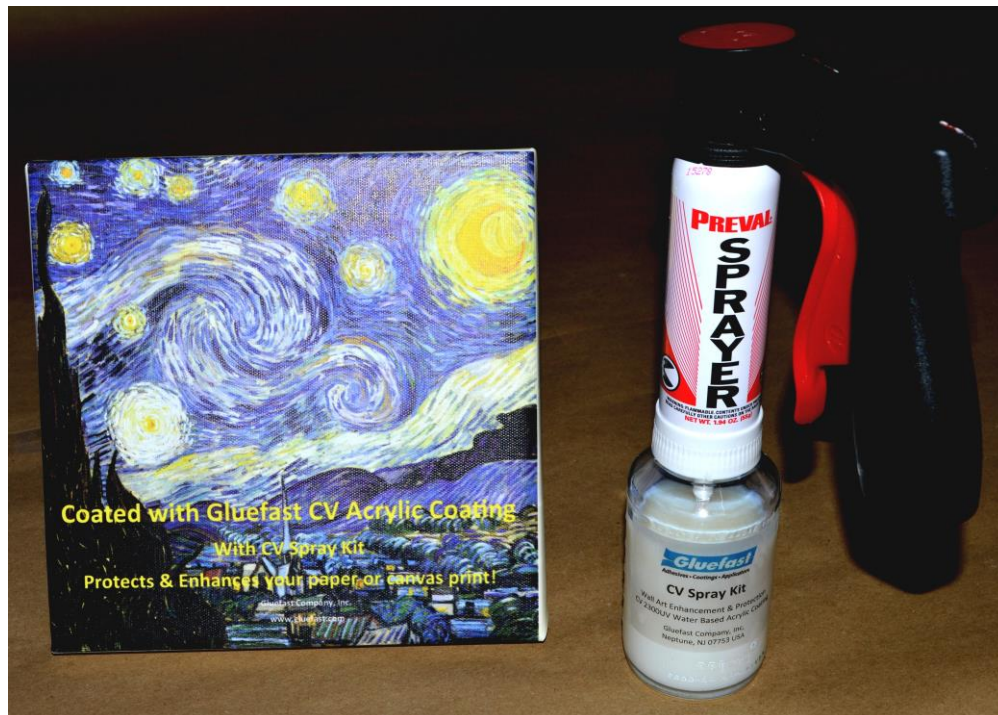

At Gluefast, we believe that this new kit enhances our portfolio of 75 years of excellence in the adhesives and coatings industry. The Gluefast Company has manufactured gluing equipment and adhesives for the wall decor industry for 75 years! Gluefast can be found on the web at www.gluefast.com.

For further information please contact Lester Mallet by phone or e-mail: lmallet@gluefast.com.
